compliance with recent
smoking legislation.**

Combo™ Bin

The ultimate large capacity food waste bin.

Purpose-designed for areas where hygiene and large capacity are a high priority, Combo Bin is ideal for use in both indoor and outdoor environments. Various models and options are available to meet your requirements, including an aperture flap model which can also be supplied with a handy tray-stacking top, perfect for use in restaurants. An open front model is also available, ideal for use at car park exits and Drive-Thru restaurants.

Large 140 Litre Capacity

The large 140 litre capacity of Combo Bin copes easily with high volumes of litter, eliminating the need for frequent emptying.

Easy-clean Hygienic Design

Smooth exterior and interior contours ensure there are no dirt traps, allowing for easy cleaning and disinfecting. A moulded-in aperture funnel guides waste directly into the centre of the sack. The door and flap can also be removed to allow cleaning of the bin by hand or pressure wash.

Easy to Empty

Door opens and rests at a 50° angle, providing access to the sack for removal without a high lift. The sack retention system allows quick and easy emptying of the bin and secures the sack in position when the door is closed, preventing litter dropping outside the sack.

Durable Construction

Manufactured in tough Durapol®** material, offering exceptional strength and durability, ideal for use both indoors and outdoors.

Options

Rear Wheels and Handle

Factory-fitted rear wheels and a handle make the bin easy to manoeuvre even when full.

Tray Restricting Bar

A stainless steel bar, factory fitted under the aperture funnel prevents trays accidentally being deposited in the bin.

Specifications

Capacity: 140ltr
Height: 1195mm
Height with tray top: 1234mm
Depth: 606mm
Width: 595mm
Weight: 22kg (with aperture flap)
..... 21.4kg (with open front)
Colours: Cool Light Grey, Dark Blue, Deep Green, Red, Black (Black contains recycled material).
(Available in any single colour or two colour combination of the above colours. Other colours and colour combinations may be available subject to a minimum order quantity.)

Siting Options

Ground fixing bolt system designed to eliminate dirt traps inside the bin.
Inset concrete ballast.

COMBO BIN WITH APERTURE FLAP AND TRAY STACKING TOP

MOULDED-IN APERTURE FUNNEL GUIDES WASTE DIRECTLY INTO SACK

EASY TO CLEAN

OPTIONAL REAR WHEELS & HANDLE

OPTIONAL TRAY RESTRICTING BAR

COMBO BIN WITH OPEN FRONT

TidyBear can't 'bear' to see untidiness

TidyBear™

This fun litter container is new from Glasdon. Children of all ages love feeding litter to TidyBear, and he is just as popular with adults. Manufactured from tough Durapol* material, TidyBear is durable and weather-resistant. A locking door panel at the back of TidyBear allows easy operator access to the zinc coated steel liner and strong drop handles assist the operator when removing and emptying.

● Specifications

Capacity: 52ltr
 Height: 941mm
 Depth: 740mm
 Width: 762mm
 Weight (with liner): 20kg

Froggo™

This appealing novelty bin is guaranteed to be a favourite with the children. Not only is it an added attraction for children's areas but it will encourage effective litter disposal, to keep a clean and tidy environment at all times. Manufactured from hard-wearing Durapol* material, Froggo bin is also supplied with a zinc coated steel liner that can be easily emptied.

● Specifications

Capacity: 52ltr
 Height: 870mm
 Width: 790mm
 Weight (with liner): 15kg

● Fixing Options

Free Standing
 Ground Fixing Bolts
 Ground-Lock™ Fixing System - for use in soft or unsurfaced ground.
 Flush Ground Fixing - for use on hard surfaces with appropriate concrete casting where bins may be removed and later resited.

Splash™

Another eye-catching novelty litter container from Glasdon. Splash litter bin is moulded in hard-wearing self-coloured Durapol* material and comprises a Dolphin Blue outer moulding complete with an Ivory coloured removable door panel for easy access to an 85 litre zinc coated steel liner. Splash litter bin is supplied as standard with the sticker "Splash wants your litter please" or the Dolphin Blue Bin-It™ symbol. Alternatively it can also be personalised with the McDonald's logo as shown, or with a message of your choice as an optional extra to promote your restaurant. (Personalisation may be subject to a minimum order quantity.)

● Specifications

Capacity: 85ltr
 Height: 1180mm
 Depth: 915mm
 Width: 745mm
 Weight: (excluding liner).. 17.5kg

● Options

Personalisation logo
 Black rigid polyethylene liner
 Ground Fixing Bolts
 Flush Ground Fixing - for use on hard surfaces with appropriate concrete casting where bins may be removed and later resited.
 Ground-Lock Fixing System - for use in soft or unsurfaced ground.

*Durapol material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure.

Balloon Tree™

Perfect for holding McDonald's party balloons or flags at children's parties. Just try and keep the kids away! Manufactured from hard-wearing Durapol* material, the Balloon Tree unit is virtually indestructible and can be easily cleaned. Various languages are available, some of which may be subject to a minimum order quantity. Please contact our Sales Office for full details.

● Specifications

Capacity:..... 52 Balloons/Flags
Height:..... 1800mm
Base Diameter:..... 600mm
Weight (ballasted base): .. 5kg
Colour: Red cone with Red base and multi-coloured balloon tree sign (balloons not included)

XpandabARRIER™ Plus

This highly visible, easy to use barrier has an expanding belt up to 2m in length. Ideal for delineation, cordoning off areas and queue control during busy periods.

IMPROVED MODEL

● Specifications

Post Height 808mm
Belt Length..... 2m
Base Diameter 300mm
Weight 10kg
Colours: Belt: Red or Blue.

Topsy™ 2000

Topsy 2000 litter bin offers the choice of either a keyless or keyed locking system. The liner only needs a short clearance from the base plinth before emptying, so significantly reduces bending and lifting by the operator. The aperture shape incorporates a 'big smile' design for easier disposal of litter. Manufactured in tough Durapol* material, the bin can withstand harsh weather conditions and still maintain a bright, attractive appearance. For added safety, Topsy 2000 litter bin can be supplied with the unique Glasdon FIREXPIRE® fire safety device (please see below for details).

● Specifications

Capacity 90ltr
Overall Height..... 1000mm
Base Size Diameter 545mm
Weight Unballasted 15kg
Internal Ballast up to 20kg
External Ballast..... up to 23kg
Aperture 325 x 120mm
Material Durapol* outer
Supplied as standard with a galvanised steel liner.
Colours: Red or Black (other colours available to suit restaurant design).

● Options

Stainless steel stubber plate complete with graphics (fitted as standard when bin ordered with Firexpire device)
Large stainless steel one, two or three-piece ashtray (Firexpire device strongly recommended)
Small one-piece aluminium ashtray (not available with Firexpire device)
Durapol* material aperture flap (not available with Firexpire device)
Personalisation Logo

● Fixing Options

Fixing bolts (concrete)
Fixing bolts (paving)
Internal Ballast (20kg)
External Ballast (23kg)
Flush Ground Fixing - for use on hard surfaces with appropriate concrete casting where bins may be removed and later resited.
Limpet™ Quick Release Fixing - for use on hard surfaces with socket concreted in.
Ground-Lock Fixing System - for use in soft or unsurfaced ground

TOPSY 2000 LITTER BIN WITH ONE-PIECE STAINLESS STEEL ASHTRAY

FIREXPIRE device complies with the testing and certification regulations

● Firexpire®

STAGE 1 - A burning match is carelessly discarded into a Litter Container.

STAGE 2 - The fire takes hold.

STAGE 3 - In under a minute, the fire extinguishing plate drops on to the Liner.

STAGE 4 - The fire is contained.

(FIREXPIRE device is an effective low cost auxiliary device and must never replace primary fire prevention measures. Obstructions preventing the plate from dropping may adversely affect the function of the unit and as many FIREXPIRE devices are used in unsupervised locations, regular inspection and immediate replacement of any damaged or distorted components is essential.)

*Durapol material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure.

Skipper™

Skipper cleaning and service trolley is ideal for sweeping and cleaning, transportation and equipment storage. It will help ensure that your staff have the best equipment for the essential job of keeping your site clean and tidy at all times. Skipper trolley is easy to manoeuvre and has handy brush and tool storage compartments. More compact than Space-Liner™, Skipper cleaning and service trolley is available with a choice of either a 70 litre rigid litter container or a sack retention system. Handles are removable if required, for compact storage.

● Specifications

Capacity: 70ltr
Height: 1100mm
Width: 630mm
Length: 1200mm
Weight: c/w rigid litter container: 22.88kg
c/w sack retention system: 18.46kg
Colours: Body: Deep Green, Dark Blue, Dark Grey
Lid: Light Grey

Space-Liner™

Space-Liner orderly barrow has superb balance and is very easy to handle. The sturdy tubular steel frame has Armortec® coating for extra durability and a lockable operator's box gives improved weather resistance as it will not rust. A bumper bar protects the frame and jockey wheels. Space-Liner orderly barrow also features reflectors positioned to catch dipped headlights. McDonald's logo stickers are fitted as standard.

● Specifications

Single Space-Liner:

Capacity: 100ltr
& 25ltr operator's box
Height: 970mm
Width : 630mm
Length: 1340mm
Weight: 42kg

Colours: Frame: Cool Dark Grey. Containers: Cool Light Grey.
Lids: Yellow, Light Green, Dark Blue, Red.

Double Space-Liner:

Capacity: 200ltr
& 25ltr operator's box
Height: 970mm
Width : 630mm
Length: 1760mm
Weight: 53kg

Litta-Pikka™

Perfect for McDonald's 'Litter Patrols', Litta-Pikka litter collection tool has been purpose-designed for strength, durability and ease of use. Its squeeze grip provides a quick and hygienic way of collecting litter. Integrally coloured bright yellow, Litta-Pikka tool also has an in-built reflector for high visibility in low light.

● Specifications

Length: 892mm. Weight: 0.5kg
Materials: Reinforced composite tube construction.
Stainless steel spring hinge pin and fixings.
Claws, central guide and hinge in impact-absorbing polymer.

Hippo™

 **HANDS-FREE HEAVY DUTY CATERING BIN**

Purpose-designed for the catering industry, Hippo bin has been developed to meet food hygiene regulations. Manufactured in Food Grade plastic, Hippo bin can be quickly and easily cleaned. The smooth surface and rounded corners eliminate debris traps. A sack retention system allows for easy sack fitting and removal.

● Specifications

Capacity: 84ltr
Height: 960mm
Depth: 550mm
Width: 530mm
Weight: 14kg
Body Colour: Grey
Lid/Pedal Colours: Yellow, Red, Blue.

TESTED through 1 Million foot presses

Statesman™

Statesman is a large capacity round internal litter bin which can hold a full 140 litres of litter. Ideal for crew rooms, the swing top cleverly hides any unsightly litter and yet still provides easy access. The wide aperture of the open top design allows easy disposal of even the largest fast food packages.

● Specifications

Capacity: 140ltr
Max Height: 865mm
Diameter: 540mm
Material: Durapol* outer
Supplied as standard with a choice of swing top or open top in Durapol* material.
Colours: Millstone, Red, Black, Deep Green, White or Black.

● Options

Zinc-coated steel liner
Moulded plastic liner
Sack dispensing system
Personalisation Logo
Swing top, rim top and plinth in chrome.

Ideal for crew rooms

*Durapol material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure.

CIGARETTE DISPOSAL BINS.

With the new smoking ban legislation being introduced, discarded cigarette ends outside entrances and Drive-Thru areas may prove to be an unsightly problem. To counter this, Glasdon have developed Cigarette Disposal Bins to complement McDonald's corporate design and quality image.

New Ashmount SG™

Ashmount SG is fitted as standard with SmokeGuard™ (patent applied for), an ingenious smoke-dampening device. There are no lips or ledges on the unit where cigarettes or other forms of litter can be left. Units can be wall, glass or post-mounted.

● Specifications

Capacity: 3ltr
 Height: 529mm
 Depth: 115mm
 Width: 191mm
 Weight: 1.98kg
 Door and Back: Black Durapol* material.

● Fixing Options

Permanent and lift-off wall fixings supplied as standard.
 Post-fixing and glass-mounting kits are also available as optional extras.

Ashmount™

Ideal for siting at restaurant entrances where the accumulation of cigarette waste can be reduced. Manufactured in tough Vandalex®+ material, units are available in two models, a 3 litre model, which can hold up to 1050 cigarette butts, for wall or glass-mounting, and a 1.5 litre model which can be wall, glass or post-mounted, and can hold up to 525 cigarette butts.

1.5 Litre Model

● Specifications

Capacity: 1.5ltr
 Height: 328mm
 Depth: 98mm
 Width: 154mm
 Weight: 2.2kg
 Colour: Anodised Silver.

● Fixing Options

Wall-Mounting kit is supplied as standard.
 Glass and Post-Mounting kits are available as an optional extra.

3 Litre Model

● Specifications

Capacity: 3ltr
 Height: 328mm
 Depth: 98mm
 Width: 300mm
 Weight: 3.54kg
 Colour: Anodised Silver.

● Fixing Options

Wall-Mounting kit is supplied as standard.
 Glass-Mounting kit is available as an optional extra.

New Ashguard SG™

Ashguard SG is fitted as standard with SmokeGuard™ (patent applied for), an ingenious smoke-dampening device. In the event of a smouldering cigarette being deposited in the unit, SmokeGuard will ensure that the majority of smoke generated will remain within the unit. Ashguard SG has a 10 litre capacity liner and can hold up to 3500 cigarette butts.

● Specifications

Capacity: 10ltr
 Height: 1030mm
 Depth: 210mm
 Width: 270mm
 Weight: 8.7kg
 Body and Door:100% recycled black Durapol* material.

● Fixing Options

Ground-Fixings supplied as standard.
 Adjustable depth concrete-in anchors and a free-standing kit are also available as optional extras.

Ashguard™

A purpose-designed cigarette unit, for use at building entrances or designated smoking areas. The unit is fire safe to combat the potentially hazardous problem of discarded cigarettes. A stainless steel version of the Ashguard cigarette disposal unit is also available.

● Specifications

Capacity: 4ltr
 Height: 1000mm
 Depth: 250mm
 Width: 207mm
 Weight: 13.5kg
 Available in stainless steel self-colour or a Dark Grey polyester coated steel.

● Fixing Options

Ground Fixing Bolts.
 Flush Ground Fixing - for use on hard surfaces with appropriate concrete casting where bins may be removed and later resited.

* Vandalex is an aluminium alloy engineered to produce a high modulus of elasticity which offers increased impact absorption properties. Its hard anodised finish will not rust, is easy to clean and never needs painting.
 * Durapol material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure.

FullBloom™ Planters

FullBloom Self-Watering planters incorporate the latest Hygromat™ capillary watering technology. A special reservoir helps to keep your plants watered, automatically allowing air and water to reach the roots as required. Manufactured from tough, high quality Durapol® material, FullBloom is available as a single hanging planter, a hanging planter with additional tier or a rail mounting planter.

● Specifications

Main Planter

External Diameter:.....538mm
Internal Planting Depth:170mm
Maximum Width:658mm
Height:269mm

Additional tier

External Diameter:.....295mm
Internal Planting Depth:155mm
Height (including main planter):
.....360mm

Colours: Dark Green, Black (contains recycled material).

BOLLARDS Ideal for traffic calming and demarcation in McDonald's Drive-Thru areas.

Rebound Signmaster™ Bollard

Rebound Signmaster is a reflectorised bollard, which requires no electricity. It is highly visible by day and night. Manufactured from Impactapol® material, it self-returns to an upright position if impacted by a motor car from any side. Rebound Signmaster has two recessed areas for 300mm diameter signfaces and has a choice of retroreflective patch and sign options to suit your drive-thru or car park requirements.

● Specifications

Overall Height:1036mm
Max. Bollard Width:400mm
Max. Bollard Depth:200mm
Bolt-down Foot Detail:328 x 328mm
Sign Face:300mm diameter
Colours: Black, White, Aircraft Grey.

Buffer™ Bollard

Buffer bollard will 'give' on impact, minimising damage to both the vehicle and bollard. Manufactured in 100% recycled rubber tyres, Buffer Bollard is perfect for busy car parks.

● Specifications

Height above ground:600mm or 900mm
Depth below ground:300mm
Maximum diameter:250mm
Colours: Black, Green, Terracotta.

Mini-Ensign™ Bollard

A cost effective, compact sign-carrying bollard ideal for use at a drive-thru or in car parks to inform of speed limits or to direct traffic flow. Mini-Ensign bollard has two recessed areas for two 150mm diameter signfaces. Two models are available, a rigid Standard model or a flexible Rebound model, which self-returns to an upright position if impacted by a motor car from any side. A selection of signfaces are available to suit all your drive-thru or car park needs.

● Specifications

Height above ground:.....1012mm
Main stem diameter:150mm
Maximum diameter:280mm
Signface diameter:150mm
Colours: Black, White, Millstone, Sandstone, Stone, Aircraft Grey (Rebound Flexible model available in Black and White only)

NOW AVAILABLE WITH NEW BOLT-DOWN FIXING

NEW BOLT-DOWN FIXING
QUICK AND EASY TO INSTALL IN UNDER 8 MINUTES.

STANDARD BOLT-DOWN FIXING
for existing concrete foundations.

ADJUSTABLE DEPTH FIXING for new concrete foundations.

THE BOLLARD FOOT CAN BE INSET INTO PAVED AREAS. The top surface of the foot detail can be sunk level with the ground.

Neopolitan™ Bollard

Neopolitan Bollard is available as a rigid standard model or a flexible "Rebound" model (shown far right). The Rebound model is manufactured in Impactapol® material, a durable impact absorbing, flexible polymer, which allows the bollard to self-return to an upright position if impacted by a motor car from any side.

NOW AVAILABLE WITH NEW BOLT-DOWN FIXING

Enviropol® Picnic Table

Ideal for McDonald's outdoor eating areas, Enviropol Picnic Table's robust design offers durability, weather resistance and low maintenance. A wheelchair access model is available.

● Specifications

| | Picnic Table | Wheelchair Access Model |
|---------------|-------------------------|-------------------------|
| Height: Seat: | 440mm | 440mm |
| Total: | 750mm | 750mm |
| Depth: | 1310mm | 1310mm |
| Length: | 1450mm | 1675mm |
| Material: | Enviropol | |
| Colours: | Black, Brown. | |
| Options: | Wheelchair access model | |

● Fixing Options

Ground fixing kits (we strongly advise ground fixing for added safety and security).

Heathton™ Picnic Table

A totally weather-resistant hardwood picnic table manufactured from managed sustainable forests. Ideal for McDonald's outdoor eating areas, the extra-wide seats provide added comfort and there is a central aperture for large parasols. Accessible by wheelchair at both ends.

● Specifications

Height:700mm
Depth:1500mm
Length:1676mm
Material: Hardwood

● Fixing Options

Ground fixing kits (we strongly advise ground fixing for added safety and security).

WINTER SAFETY EQUIPMENT

To keep your restaurant running smoothly in winter, Glasdon offer a range of products to assist with snow removal and grit/salt spreading and storage.

Slimline™

With its slim compact design, Slimline grit/salt storage container is ideal where space is limited, for example footpaths, car parks and entrance areas. The 160 litre capacity container is manufactured from Durapol* material which can withstand extreme weather conditions.

● Specifications

Capacity:160ltr
Height:.....750mm
Width:.....838mm
Colours: Red, Yellow, Deep Green, Beige.
Weight Capacity:208kg
Material: Durapol*

Icemaster™

Handy mini spreader disperses dry salt and Glasdon Icemelt™ quickly and effectively. Easy to use with adjustable flow control for economical use of material.

● Specifications

Icemaster 20
Capacity:.....22ltr
Maximum spreading width:.....1500mm
Weight capacity:.....18kg

Snowscoop™

Lightweight and easy to push, Snowscoop snow clearer quickly scoops away snowdrifts from entrance areas, footpaths and car parks. Snowscoop has a 600mm blade and is constructed in mild steel with a stove-enamelled blue paint finish.

Carleton 50™

In caring for the environment, we are constantly reviewing the use of recycled materials. Many of our litter containers are now available in recycled polyethylene, which contains between 10% and 100% recycled material in Black with some other colours subject to availability. The recycled content comprises reclaimed material otherwise discarded during the production process and where appropriate, reclaimed materials from other sources.

(The use of recycled materials may affect finished product durability and may cause some colour variation in the finished goods.)
