SMOKING CONTROL SOLUTIONS

To help compliance with smoking ban legislation

Introducing SmokeGuard™, an ingenious smoke-dampening device

www.glasdon.com
180° Opening Door with Integrally Moulded Knuckle Hinge

The strong and durable hinge is integrally moulded into the body and backbone. For ease of operation, the door pivots fully open to provide access to the liner.

Stainless Steel Stubbing Grille and Apertures

The stubbing grille is manufactured from polished stainless steel, which provides a heat resistant stubbing area. Small apertures are located below the stubbing area for easy disposal of cigarettes, whilst helping to prevent other forms of litter being deposited. There are no lips or ledges where cigarettes can be placed.

Galvanised Steel Liner

Ashmount SG contains a 3 litre capacity galvanised steel liner, which holds approximately 1,050 cigarette butts.

SmokeGuard™*

The SmokeGuard device is fitted underneath the stubbing grille and within the liner. In the event of a smouldering cigarette being deposited in the unit, SmokeGuard will ensure that the majority of smoke generated will remain within the unit.

Anodised Aluminium Domed Top

Ashmount SG's dome shaped cap prevents litter being left on top of the unit, and is manufactured in anodised aluminium which protects the top of the door moulding should cigarettes be stubbed out on this area.

Locks on Both Sides

Ashmount SG can be locked or unlocked from either side, providing versatility of siting.

Robust, Weather-Resistant Outer

The door and back of the unit are in weather and vandal-resistant Black Durapol® polymer, which is 100% recyclable after its usable life.

NEW

Fitted as standard with SmokeGuard™ an ingenious smoke-dampening device.

For wall, glass or post-mounting.

To order on-line, please visit our Smoking Control Products website: www.smokingban.com

* The Unique Glasdon SmokeGuard is the subject of a patent application.
Prices
Ashmount SG 1-9 qty £96.87 each*
Ashmount SG 10-19 qty £87.18 each*
Ashmount SG 20+ qty £78.57 each*
(*A carriage charge of £4.85 will be applied for each delivery location.)

Permanent and Lift-off Wall Fixings
Ashmount SG is supplied with permanent and lift-off wall fixings as standard. Post-fixing and glass-mouting kits are also available as optional extras.

Magnetic Liner Stay
A magnetic liner stay secures the liner to the backbone of the unit.

Can be Personalised
An area of approximately 150mm x 170mm on the door can be personalised to incorporate customer logos or alternative signage.

Easy To Empty

Specifications
Height: .................................................................529mm
Width: ...............................................................191mm
Depth: ...............................................................115mm
Liner capacity: ..................................................3ltr
Recommended height to top of unit above ground: ....1500mm
Recommended aperture height above ground: .......1310mm
Weight with liner: .............................................1.98kg

Materials
Door and Back: Black Durapol® material, formulated to withstand extremes of temperature and impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure.
Lock: Polycarbonate.
Stubbing Grille: Stainless Steel.
Cap: Anodised Aluminium.
Smoke Deflector: Self finished Aluminium.
Liner complete with smoke dampener: Galvanised mild steel.
SmokeGuard™

The SmokeGuard device is fitted underneath the stubbing grille and within the liner. In the event of a smouldering cigarette being deposited in the unit, SmokeGuard will ensure that the majority of smoke generated will remain within the unit.

NEW
ASHGUARD SG™

Fitted as standard with SmokeGuard™ an ingenious smoke-dampening device.

Double-sided cigarette bin for 360° use.

SmokeGuard™

2 Stainless Steel Stubbing Grilles and Apertures

A stainless steel stubbing grille is positioned on each side of the Ashguard SG. The stubbing grilles are manufactured from polished stainless steel, which provides a heat resistant stubbing area. Small apertures are located below the stubbing areas for easy disposal of cigarettes, whilst helping to prevent other forms of litter being deposited. There are no lips or ledges where cigarettes can be placed.

Anodised Aluminium Domed Top

Ashguard SG’s dome shaped cap prevents litter being left on top of the unit. It is manufactured in anodised aluminium which protects the top of the door moulding should cigarettes be stubbed out on this area.

Robust, Weather-Resistant Outer

The door and back of the unit are in weather and vandal-resistant 100% recycled Black Durapol® polymer, which is 100% recyclable after its usable life.

Easily Identifiable from Any Angle

Cigarette graphics are positioned on the door, each side and on the back of the Ashguard SG so the unit is easily recognised from any angle.

Removable Door

For ease of operation, the door pivots open and then remains attached or can be easily removed to provide access to the liner for emptying.

Can be Personalised

A4 portrait size areas on the front and rear of the unit can be personalised to incorporate customer logos or alternative signage.

Galvanised Steel Liner

Ashguard SG contains a 10 litre capacity galvanised steel liner, which holds approximately 3,500 cigarette butts.

The Unique Gladsdon SmokeGuard is the subject of a patent application.
Ground-Fixing

Ashguard SG is supplied with ground-fixings as standard. Adjustable depth concrete-in anchors and a free-standing kit are also available as optional extras. The free-standing option allows the unit to be removed and stored, for example overnight, in areas where vandalism is recurrent.

Prices

Ashguard SG 1-9 qty £177.60 each
Ashguard SG 10-19 qty £168.99 each
Ashguard SG 20+ qty £150.69 each

Ashguard SG prices are inclusive of delivery, only VAT will be added.

Specifications

Height: .............................. 1030mm
Width: ................................. 270mm
Depth: ................................. 210mm
Liner capacity: ..................... 10ltr
Aperture height: ................... 850mm
Weight with liner: ............... 8.7kg

Materials

Body and Door: 100% recycled Black Durapol® material, formulated to withstand extremes of temperature and impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure.

Stubbing Grille: Stainless Steel.
Cap: Anodised Aluminium.
Smoke Deflector: Self finished Aluminium.
Liner complete with smoke dampener: Galvanised steel.
12 litre Ashmount

For wall mounting, 12 litre Ashmount is ideal for high volume smoking areas. This unit holds up to 4200 cigarette butts. The 12 litre Ashmount contains 4 individual galvanised steel liners.

3 litre Ashmount

For wall or glass-mounting, 3 litre Ashmount holds up to 1050 cigarette butts. The popular 3 litre Ashmount will encourage smokers to dispose of their cigarette butts hygienically.

1.5 litre Ashmount

For wall, glass or post-mounting, 1.5 litre Ashmount holds up to 525 cigarette butts. This handy sized unit is ideal for entrances to buildings or for waiting areas, such as bus stops.

To order these products on-line, please visit our Smoking Control Products website: www.smokingban.com
Weather and Vandal-Resistant

Ashmount cigarette bins are weather-resistant and require minimum maintenance. Manufactured in tough Vandalex® material, a vandal-resisting anodised aluminium, with ultra-destruct cigarette logo.

Stubbing Grilles and Apertures

Ashmount units are designed with stubbing areas and cigarette disposal apertures. The Vandalex® anodised aluminium grilles provide a heat resistant stubbing area for cigarettes. The apertures prevent other forms of litter being deposited.

Quick and Easy to Install

Each Ashmount unit is supplied with a wall-mounting kit for permanent fixing. A post-mounting kit can be supplied as an optional extra with the 1.5ltr Ashmount. Optional glass-mounting kits are also available for the 1.5ltr and 3ltr models.

Can be Personalised

Ashmount can be personalised to incorporate customer logos or alternative signage.

Materials

Highly Durable and Weather Resistant
The outer of Ashguard is available in either “brushed” stainless steel (316 premium grade) or dark grey Armortec® coated steel. (The Armortec® coating provides improved corrosion-resistance.) Both options feature a stainless steel stubbing grille. Ashguard is supplied with a screen printed cigarette logo that cannot peel. For weather-resistance, the hood design shelters the ash compartment from rain.

Integral Grille
The integral stubbing and aperture grille enables smokers to extinguish and dispose of cigarette butts and ash only.

Ground-Fixing
Ashguard is supplied with a standard ground-bolting kit for permanent fixing to concrete or flagstones. As an optional extra, a flush ground-fixing plate for concreting-in allows Ashguard to be fastened down then removed if required, leaving no trip hazard.

Galvanised Steel Liner
Ashguard contains a 4 litre capacity galvanised steel liner, which holds approximately 1,400 cigarette butts.

Can be Personalised
Ashguard can be personalised to incorporate customer logos or alternative signage.

Specifications
- Height: ............1000mm
- Width: ............207mm
- Depth: ............250mm
- Liner capacity: 4ltr
- Weight: ............13.5kg

Materials

Ashguard prices are inclusive of delivery, only VAT will be added.
A stylish purpose-built litter bin with two integral ash containers, Integro is the one-stop solution for cigarette waste and general litter control. Large apertures and a 90 litre capacity litter liner enables easy disposal of litter.

### Prices
- Integro in Black, Deep Green, Dark Blue £396.42
- Integro in Millstone, Sandstone, Granite £406.01
- Firexpire kit (cannot be used with flaps) £35.64
- Flaps (price per pair) (cannot be used with Firexpire) £68.51
- 12mm Gold or Silver band £8.59

Integro prices are inclusive of delivery, only VAT will be added.

### Specifications
- **Height:** 1100mm
- **Width:** 600mm
- **Depth:** 402mm
- **Capacities: Litter liner:** 90ltr
- **Ash liners x 2:** 3ltr each
- **Weight with steel liner:** 21.4kg

### Optional Extras
- **Firexpire**® fire extinguishing device – please see page 19 for details.
- **Choice of ground fixings.** (We strongly advise ground fixing where possible.)
- **Litter aperture flaps.** (Please note that Firexpire device and litter aperture flaps cannot be used together as the flaps would prevent the device from working.)
- **BANDING – 12mm Gold or Silver band.**
- **Personalisation.**

### Materials
- Bin body and hood: Durapol® material, formulated to withstand extremes of temperature and impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure.
- Ash and litter liners: Galvanised steel.
- Ash grille, lock plate, end panels, stubber plate: Brushed stainless steel.

### Colors
- Millstone
- Sandstone
- Granite
- Dark Blue
- Deep Green
- Black

### Standard Features
- Anti-burst lock – key to open, slam to lock.
- Cigarette ash grille and containers x 2.
- Zinc-coated steel liner.
- Stainless steel cigarette stubber plate.
- Bin-it symbol in Gold, Silver, Black or White.

### Optional Extras
- Firexpire® fire extinguishing device – please see page 19 for details.
- Choice of ground fixings. (We strongly advise ground fixing where possible.)
- Litter aperture flaps. (Please note that Firexpire device and litter aperture flaps cannot be used together as the flaps would prevent the device from working.)
- Banding – 12mm Gold or Silver band.
- Personalisation.
**CENTURO™**

A modern, large capacity litter bin, manufactured from Duracore™ advanced material for exceptional strength and durability. Centuro is available with or without cigarette ash grilles. The stainless steel grille enables cigarette waste to be deposited into a separate liner through holes small enough to deter other waste, therefore minimising fire risk.

**Standard Features**
- Stainless steel cigarette stubbing plate*
- Bolt fixings for permanent ground fixing onto concrete foundation or paving slabs.
- Moulded knuckle-hinge door.
- Two point locking system - key to open, slam to lock.
- Zinc-coated steel liner, moulded plastic liner or sack retention system.
- Bin-it symbol in Gold, Silver, Black or White.

**Optional Extras**
- Firexpire fire extinguishing device - please see page 19 for details.
- Choice of fixings.
- Stainless steel cigarette ash grille and container*.
- Banding - 2 x Gold or Silver bands.
- Plastic sacks (for use with sack retention system only).
- Personalisation.

*(Please see page 18 for details.)

**Specifications**
- Width: .............................. 560mm
- Depth: ............................. 550mm
- Height: ........................... 968mm
- Weight with steel liner: ..27.5kg
- Capacities: Litter liner: ...100ltr
- Ash liner: ........................3ltr (optional extra)

- Sandstone
- Deep Green
- Black

**Prices**
- Plain colours **£501.19**
- Stone effect colours **£516.23**
- Firexpire kit **£47.10**
- 3ltr ashtray kit **£72.77**

---

**FUTURO™**

A stylish, modern litter bin with two large litter apertures and an optional integral cigarette ash grille. The large front-opening door allows easy access to the liner, which enables quick and efficient emptying with minimal lifting. Futuro is manufactured from strong, durable Durapol® material.

**Standard Features**
- Stainless steel cigarette stubbing plate*
- Bin-it symbol in Gold, Silver, Black or White.
- Moulded knuckle-hinge door.
- Anti burst lock – key to open, slam to lock.

*(Please see page 18 for details.)

**Optional Extras**
- Stainless steel side-mounted ash grille and container with cigarette symbols*.
- Stainless steel hood-mounted ashtray*.
- Firexpire fire extinguishing device – please see page 19 for details.
- Litter aperture flaps. (Please note that Firexpire device and litter aperture flaps cannot be used together as the flaps would prevent the device from working.)
- Choice of ground fixings.
- Sack retention system.
- Banding: 2 x Gold or Silver bands.
- Plastic sacks (for use with sack retention system only).
- Personalisation.

- Hood-mounted ashtray **£78.38**
Smoking legislation requires that all smoking shelters are not wholly or substantially enclosed and have a minimum of 50% open wall area. Carleton 50 Smoking Shelters feature reduced height glazing panels on all models to achieve compliance. To help provide greater protection from the weather, each smoking shelter roof style has a perimeter roof canopy.

Carleton 50 is available with either natural anodised or colour coated aluminium framework and toughened glass or thermoplastic glazing. A choice of flat, curved or pitched roof styles allow for co-ordination with existing architecture. Supplied fully assembled.

Other options include:
- Integral perch seating for extra user-comfort.
- Lighting for improved visibility during dark winter months.
- Colour choice for harmonisation with surroundings and corporate themes.
- Cigarette disposal units for control of litter (see pages 2-10 for details).

Carleton 50 is available in standard sizes ranging from 2880mm long x 1735mm wide to 3865mm long x 2880mm wide.

For more information please contact Glasdon Manufacturing on Tel: 01253 891131, Fax: 01253 891923 or e-mail: seating@shelters@glasdon-manufacturing.co.uk
New Eclipse Canopy is manufactured from durable Durapol® material, to provide partial shelter from the weather in designated outdoor smoking areas. The canopy can be wall or post-mounted, and sited either side-by-side or back-to-back to create the most ideal smoking area for your environment. Supplied fully assembled.

Tough, Durable Construction

Durapol® construction gives the unit excellent weather resistance and rigidity. Durapol® material is self-coloured and will not rot or corrode, so virtually no maintenance is required.

Weather Protecting Design

Eclipse Canopy’s roof has a downward sloping gradient, which encourages rain and snow to fall off, helping drainage and avoiding heavy loading. Thermal expansion slots allow the canopy to expand and contract around the fixings during extreme temperatures. A foam sealing strip gives the canopy a complete waterproof seal when the units are sited either back-to-back, side-by-side, or against a wall.

Wall or Post Mounting

Eclipse Canopy is supplied with tamper-proof fixings for wall-mounting, suitable for general brickwork which is in good condition. Concrete-in and surface-mounting posts are available as an optional extra, to allow positioning of the Canopy back-to-back, or in a place where no suitable wall is available. The post-mounting option has an Armortec coated steel frame, for improved corrosion-resistance.

Recommended height to the top of unit above ground: 2455mm
Recommended height to the bottom of unit above ground: 2005mm

Materials
Canopy: Durapol® material, formulated to withstand extremes of temperature and impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure. Concrete-in and Surface-Mounting Posts: Armortec® Coated Mild Steel.

Colours
Black (contains recycled material), Sandstone, Millstone, Whitestone.
(All colours are recyclable after the product’s usable life.)

The black part of the canopy is made of recycled material.
NEW CARLETON Canopy™

New Carleton Canopy is designed to provide partial shelter from the weather in designated outdoor smoking areas. Three sizes are available, lengths: 1400mm, 2800mm and 4200mm. Supplied fully assembled.

Tough Construction

Carleton Canopy has silver Armortec® coated, 100% recycled cast aluminium ends, which are interlocked by a twin walled tinted polycarbonate roof sheet and a connecting aluminium extrusion at the front and back of the unit.

Wall-Mounting

Carleton Canopy is supplied with tamper-proof fixings for wall-mounting.

Weather Protecting Design

Carleton Canopy’s roof has a downward sloping gradient which encourages rain and snow to fall off, helping drainage and avoiding heavy loading.

Materials

Cast ends: Recycled cast aluminium with Armortec® coating.
Connector tubes: Aluminium extrusion with Armortec® coating.
Roof: Twin-walled polycarbonate sheet.

Colours

Cast ends: Silver.
Connector tubes: Silver.
Roof: Bronze tinted.

Hood-Mounted Ashtrays

**Can be Retrofitted.**

**Hood-Mounted Circular Ashtray**
- Manufactured from polished stainless steel.
- Retrofitting kits available for use on existing litter bins.

Top grille diameter: 160mm
Depth of top plate c/w ashtray: 85mm
Capacity: 1ltr

**Quick & Easy Emptying**
Push plunger down through aperture to open the trap door, this releases the ashtray contents into the liner.

**Gemini Hood-Mounted Ashtray with unique Quick-Release™ Emptying Mechanism**
- Manufactured from stainless steel.
- Top grille: 280 x 80mm  Capacity: 1ltr

1. To empty, pull down pivoting ashtray base.
2. Side handles keep hands clear of contents.
3. Cigarette waste can be released into main litter liner.

**IMPORTANT SAFETY NOTICE**
To ensure safe operation at all times; routine care must be taken to remove any debris, which could impede the return of the ashtray base to its fully closed position.

Firexpire is not available on litter bins with fitted hood-mounted ashtrays.

**Ashtray Tops**
- Three large corrosion resistant ashtray tops available.
- Manufactured from stainless steel.

**Dimensions:**
- **ASHTRAY**
  - Outer Diameter: 350mm
  - Overall Height: 47mm
  - Capacity: 1.2ltr
  - Weight: 1.0kg
- **GRILLE**
  - Outer Diameter: 234mm
  - Overall Height: 19mm
  - Capacity: N/a
  - Weight: 0.32kg
- **LINER**
  - Outer Diameter: 221mm
  - Overall Height: 34mm
  - Capacity: 0.9ltr
  - Weight: 0.18kg

(* inc. stainless steel chain)

**Side-Mounted Ash Grilles**
- Compact design cigarette ash grille and liner.
- Stainless steel ash grille, zinc-coated steel liner.

Grille: 112mm x 130mm
Capacity: 3ltr

**Stubber Plates**
- Manufactured from stainless steel.
- Retrofitting kits available for use on existing litter bins.

(Brunel stubber plates available in stainless steel or Black anodised aluminium.)

Litter Bin Ashtray Blanking Kits

Ashtray blanking kits are available for retrofitting to existing Glasdon litter bins with ashtrays, which remain situated in internal locations. This ingenious design allows litter bins with an ashtray to be used in ‘no smoking’ areas, by covering the ashtray compartment.

Manufactured from stainless steel for use on two and three-piece ashtrays. This kit contains a blanking plate, which is easily fixed within the existing 9-hole dimple plate.

Manufactured from stainless steel for use on one-piece ashtrays. This kit contains a 9-hole dimple plate and a blanking plate which are factory assembled to allow simple positioning within the ashtray.

This kit contains a chrome dome top for placing directly into a one-piece ashtray, or to replace the 9-hole dimple plate in a two-piece ashtray.

Fire Safety Device

Firexpire fire safety device is a fire extinguishing plate fitted within the bin top. Should a fire break out inside the bin, a special replaceable, heat responsive device releases the plate, which then seals off the mouth of the liner and snuffs out the fire through oxygen starvation. Replacement of the heat responsive device using only a screwdriver resets Firexpire fire safety device on site.

(Firexpire fire safety device is an effective low cost auxiliary device and must never replace primary fire prevention measures. Obstructions preventing the plate from dropping may adversely affect the function of the unit and as many Firexpire devices are used in unsupervised locations, regular inspection and immediate replacement of any damaged or distorted components is essential.)

Please note that Firexpire fire safety device and litter aperture flaps cannot be used together as the flaps would prevent the Firexpire device from working.

(Firexpire is not available on litter bins with fitted hood-mounted ashtrays.)
Smoking Ban Signs

Employers and managers are required by law to display “No Smoking” Signs in or on any premises affected by the ban, so that they can be seen and read by people within and approaching the premises. We supply six different signs, which comply with the law relating to No Smoking Signs for premises.

1. Smoking Area Sign

   For use in designated Smoking Areas.

2. Legal Sign for Scotland

   Conforms to Scottish smoking sign legislation for displaying at entrances to smoke-free premises.

3. No Smoking Sign

   For general use around smoke-free premises.

4. No Smoking Sign

   Available as a front printed only or as a front and rear printed 88mm diameter vinyl sticker.

5. Legal Sign for England and Northern Ireland

   Conforms to English and Northern Ireland smoking sign legislation for displaying at entrances to smoke-free premises.

6. Legal Sign for Wales

   Conforms to Welsh smoking sign legislation for displaying at entrances to smoke-free premises.

7. Legal Sign for Isle of Man

   Conforms to Isle of Man smoking sign legislation for displaying at entrances to smoke-free premises.

8. Legal Sign for Isle of Man

   Conforms to Isle of Man smoking sign legislation for displaying around smoke-free premises.

The polycarbonate plaques are rear printed to protect the signface from impacts or scratches, and are weather, UV and vandal-resistant. The vinyl stickers are durable and hard wearing and are suitable for indoor use.
